

# NON-FRIED INSTANT NOODLES PRODUCTION LINE

## 非油炸方便面生产线

生产线平面图展示 Production Line Floor Plan

- ① 圆盘熟化机 Round Disk Aging Machine
- ⑥ 连续式烤箱 Continuous Drying Oven
- ② 盐水罐/计量罐 Alkali Water Measuring Device
- ⑦ 整理机 Arranging Machine
- ③ 压延机 Rolling Shaping Machine
- ⑧ 风冷机 Air Cooling Machine
- ④ 三层蒸箱 3 Layer Steaming Machine
- ⑨ 分流输送机 Distributing Conveying Machine
- ⑤ 切断、分排机 Cutting And Sorting Machine
- ⑩ 弯道输送机 Checking Conveyor
- ⑪ 包装机 Packaging Machine

### 设备介绍 Equipment Introduction

小产量方便面生产线是我公司在研究国内外同类产品的基础上,生产的具有小型化特点的新一代产品。其工艺完善、结构紧凑、设计新颖、性能稳定可靠。生产从面粉到成品自动完成,操作简单、产量适中、节约能源、占地面积小,具有投资少、见效快的特点。生产的波纹片方便面,复水时间短,有良好的弹性、光滑度和透明度,可与市场流行的大型设备相媲美。

The small-capacity instant noodle production line is a new generation of miniaturized products produced by our company on the basis of researching similar products at home and abroad. It has perfect technology, compact structure, novel design, stable and reliable performance. The production is automatically completed from flour to finished products, with simple operation, moderate output, energy saving, small footprint, and the characteristics of less investment and quick results. The corrugated sheet instant noodles produced have short rehydration time, good elasticity, smoothness and transparency, which are comparable to the large-scale equipment popular in the market.
